SUMMARY

Passionate Software Engineer with a solid foundation in Java , web and App development. Gained hands-on experience through internships and projects. Quick learner with strong problem-solving skills, eager to contribute to a dynamic team and build scalable, efficient solutions.

EDUCATION

Dhanalakshimi college of engineering <i>BE in Computer science and engineering (8.0)</i>	August-2021 – June-2025 <i>Chennai</i>
Word and Deed junior college <i>Intermediate in M.P.C (82.8)</i>	June-2019 – March-2021 <i>Hyderabad</i>
Don Bosco High school <i>High School in ssc (85.0)</i>	June-2018 – March-2019 <i>hyderabad</i>

EXPERIENCES

Motion cut

Web Development Intern

Remote

- I had Developed web pages using HTML, CSS, and JavaScript. I made sure the design worked well on different devices and browsers. I improved the look and feel of the website based on feedback. I also used tools like Visual Studio Code, Chrome DevTools, and Git to build and fix issues

Devtown

Java Developer Intern

Remote

- I built and tested small applications using Core Java, writing clean and efficient code. I used Object-Oriented Programming (OOP) to create modular and reusable components. I also worked with Java features like file handling, multithreading, and collections to solve real-world problems. Additionally, I debugged and maintained existing code to keep everything running smoothly.

PROJECTS

AI Chatbot App | *Java, Kotlin, Jetpack Compose. Android Studio*

- I Developed an AI chatbot application using Java and Android, integrating the Gemini API for natural language processing. Implemented real-time conversational features to provide intelligent responses to user queries. Designed a user-friendly interface for seamless interaction. Utilized Firebase for user authentication and message storage. Optimized the chatbot for accuracy and performance, ensuring a smooth user experience.

Student Management System | *Java, Core Java, OOP, Collections (ArrayList)* |

- I Developed a console-based Java application to manage student records. Implemented core functionalities such as adding, viewing, searching, and deleting student details using Object-Oriented Programming principles and Java's ArrayList collection.

TECHNICAL SKILLS

Languages: C, Java, HTML, CSS, JavaScript

Developer Tools: VS Code, Android Studio

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management Systems

Technologies and Frameworks: React js

ACHIEVEMENTS

- Mastering Fundamentals of Java by Scaler
- HTML, CSS - Google Certificates via DevTown
- Web development - motion cut
- UI/UX Design certificate -Coursera
